- Decree n°93-1154 dated 17 May 1993, relating to airport and air navigation services charges, and all the amending or completing texts and notably Decree n°95-1926 dated 24 July 1995, Decree n° 2008-101 dated 16 January 2008 and Decree n°2021-81 dated 25 January 2021.
- Decree n°2016-625 dated 25/05/2016 laying down the modalities of application and recovery of the tax on International flights created by Article 81 of Law n°2015-53 dated 25/12/2015 relating to 2016 Finance Law, as amended by Article 52 of Law n°2016-78 dated 17/12/2016 relating to 2017 Finance Law and Article 51 of Law n°2023-13 dated 11/12/2023 relating to 2024 Finance Law.

1. SCOPE

A Passenger Service charge applies for the use of services and facilities provided to passengers. The basis of this charge is the number of passengers on board. The rate and the principles of application of this charge are described below.

2. CHARGES

INTERNATIONAL PASSENGER Euro (€) / passenger	DOMESTIC PASSENGER Euro (€) / passenger
13	1

3. PRINCIPLES OF APPLICATION

A. Passenger Service charge that shall be paid to TAV is included in passenger's ticket fare. Airline officials can collect passenger service charge during check-in, if it is not collected at the time the ticket is purchased, but this application is possible only for exclusive cases, which are based on individual passenger.

For the passengers not holding tickets, in case of need, charges can be collected by TAV, after airline's approval and in accordance with the charge collection service defined on the SGHA, before boarding, with the delivery of a receipt specifying the object of payment

B. Charges are based on Load and Trim Sheet and on other official documents.

C. This charge is not applied for the conditions indicated below:

- The crew members (with their names listed in the related flight's documentation and holding id cards (pilots, flight engineers, cabin crew, technician)
- Passengers in direct transit, pausing briefly at the airport and departing aboard the aircraft flight number of which is identical to that of their arrival;
- Passengers in connecting flights, pausing briefly at the airport, without leaving the customs area;
- Children under the age of two;
- Passengers of a foreign State aircraft in official visit to Tunisia;
- Passengers using a State aircraft or a public administration one on a domestic flight.

4. PAYMENT

The Passenger Service Charge is applied and invoiced according to principles of application, reduction / exemption conditions of Tunisian AIP (GEN 4.1.3, GEN 4.1.7 and GEN 4.1.8).

1. SCOPE

A Security Charge for Passengers is payable by any boarding passenger on any domestic or international flight. The rate and the principles of application of this charge are described below.

2. CHARGES

Type Of Service	Charges
Passenger Security	1,60 Euro / each departing passenger

3. PRINCIPLES OF APPLICATION

A. This charge is not applied for the conditions indicated below:

- Crew members with their names listed in the related flight's documentation and holding id cards (pilots, flight engineers, cabin crew, technician);
- Passengers in direct transit, pausing briefly at the airport and departing abroad with the same number of flight identical to that of their arrival;
- Passengers in connecting flights, pausing briefly at the airport, without leaving the customs area;
- Children under the age of two (2);
- Passengers of a Foreign State aircraft in official visit to Tunisia;
- Passengers using a State aircraft or a public administration one on a domestic flight.

4. PAYMENT

The Security Charge for Passengers is applied and invoiced according to the principles of application, reduction / exemption conditions of Tunisian AIP (GEN 4.1.4, GEN 4.1.7 and GEN 4.1.8).

1. SCOPE

Referring to Article 81 of Law n°2015-53 dated 25/12/2015 relating to 2016 Finance Law, as amended by Article 52 of Law n°2016-78 dated 17/12/2016 relating to 2017 Finance Law and Article 51 of Law n°2023-13 dated 11/12/2023 relating to 2024 Finance Law, a tax payable by airlines in respect of every passenger entering Tunisia by international flight is applied starting from 1st of January 2024. The rate and the principles of application of this charge are described below.

2. CHARGES

Charge / International passenger	Travel class
40 TND (or the equivalent in Euro)	Economic class
60 TND (or the equivalent in Euro)	1 st class / Business class

3. PRINCIPLES OF APPLICATION

Are exempted from this tax:

- Passengers in transit,
- Children under the age of two,
- Passengers on board of a foreign State aircraft in official visit.

4. PAYMENT

The Tax on International Passengers is applied and invoiced according to the principles provided for in Decree n°2016-625 dated 25/05/2016 mentioned above.

1. SCOPE

A Passenger Boarding Bridge charge and a 400 Hz Service Charge are applied for flight operations benefitting from related facilities at Enfidha Hammamet Airport. The rates and the principles of application of these charges are described below.

2. CHARGES

PBB charge Use & Per Flight	Per 1 st Bridge Euro (€)	2 nd Bridge (For Wide Body Aircrafts) Euro (€)
	200	200
400 Hz. charge	Per 1/2hour charge for normal timing (€) Local Carrier	Per 1/2hour charge for normal timing (€) Foreign Carrier
	15	25

3. PRINCIPLES OF APPLICATION

- The Boarding Bridge Charge is applied for each connection. If two bridges are requested to serve to an aircraft, second bridge charge will also be applied.
- Duration for the use of boarding bridge begins with docking of aircraft to the bridge and ends by push-back from the boarding bridge.
- When calculating 400 Hz service charge, half an hour fee is charged if time is less than half an hour, if half an hour is exceeded, full hourly fee is charged.
- Duration for 400 Hz system begins with the connection of the system to aircraft and ends with the disconnection of the system from aircraft.
- For the aircraft docking to the boarding bridge, parking plan of Airport Operator is fundamental. In case of an extension of the duration of using boarding bridge and/or extension caused by a delayed landing and in turn these extension impedes later allocations, airport operator may ask aircraft to park at remote park position by cancelling previous allocation. Long period parking at the boarding bridge park positions is only possible upon the authorization given by airport operator.
- The Boarding Bridge Charge is not applied for the conditions indicated below:
 - Aircraft belonging to the Tunisian State or used by it as a public service and without remuneration;
 - Aircraft carrying aids or donations;
 - Foreign State aircraft in official visit to Tunisia.

4. PAYMENT

The Boarding Bridge Charge is applied and invoiced according to principles of application, reduction / exemption conditions of Tunisian AIP (GEN 4.1.6 and GEN 4.1.8). The 400 Hz Service Charge is applied and invoiced according to the principles of the agreement between TAV Tunisie and the related organization.

1. SCOPE

Charges apply for the allocation of check-in area and related facilities. The rates and the principles of application of these charges are described below.

2. CHARGES

Item	CHARGE (TND) (HTVA) (Per YEAR)	CHARGE (TND) (HTVA) (Per HOUR)
Check-in Counter per Desk	2660	7.35
Check-in area per Sqm	655	2.10
Excess Check-in Counter per Desk	5520	15.75
Scale per unit	1330	4.20
Checked Passenger per pax		0.1205

3. PRINCIPLES OF APPLICATION

- Any period less than one hour is considered as one hour.
- Request for temporary desk allocations are made to TAV terminal officer at least one hour prior to the desk opening.
- The duration of temporary desk allocation at the airport, begins with the opening of the desk and ends with the related airline / handling company's desk officials notification to TAV terminal officer for closing of the desk and by signing the related forms.
- At terminal where the electronic scales are available, delivery and subsistence of check-in desks; (electronic scales are checked on both) are made in undamaged conditions. If any damage or failure is noticed during usage or check, the loss is compensated by the user.

4. PAYMENT

- The check-in area and related facilities charges are applied and invoiced according to the principles of the agreement between TAV Tunisie and the related organization.
- Above mentioned charges are without VAT.

1. SCOPE

A Landing Charge applies for the use by the aircraft of the Airport infrastructures and equipment required for landing. The charge is based on the maximum take-off weight of the aircraft (MTOW). The rate and the principles of application of this charge are described below.

2. CHARGES

A. For aircraft performing commercial air transport within the meaning of the convention for the unification of certain rules relating to international carriage by air, signed at Warsaw on October 12th, 1929, Landing charge is applied as follows;

Aircraft MTOW ⁽¹⁾ <i>Any fraction of ton is counted as one ton.</i>	International	Domestic
1-25 ton	6,00 Euro / ton	2,30 Euro / ton
26-40 ton	7,50 Euro / ton	3,00 Euro / ton
41-80 ton	9,00 Euro / ton	3,40 Euro / ton
81 tons and more	15,00 Euro / ton	5,60 Euro / ton

B. For aircraft performing non-commercial traffic, the same charges as mentioned above are applied, except for aircraft with a MTOW of five tons or less, which are charged as follows :

- International traffic : 3 Euro / 500 Kg *Any fraction of 500 kg is counted as 500 kg.*
- Domestic traffic : 1 Euro / 500 Kg *Any fraction of 500 kg is counted as 500 kg.*

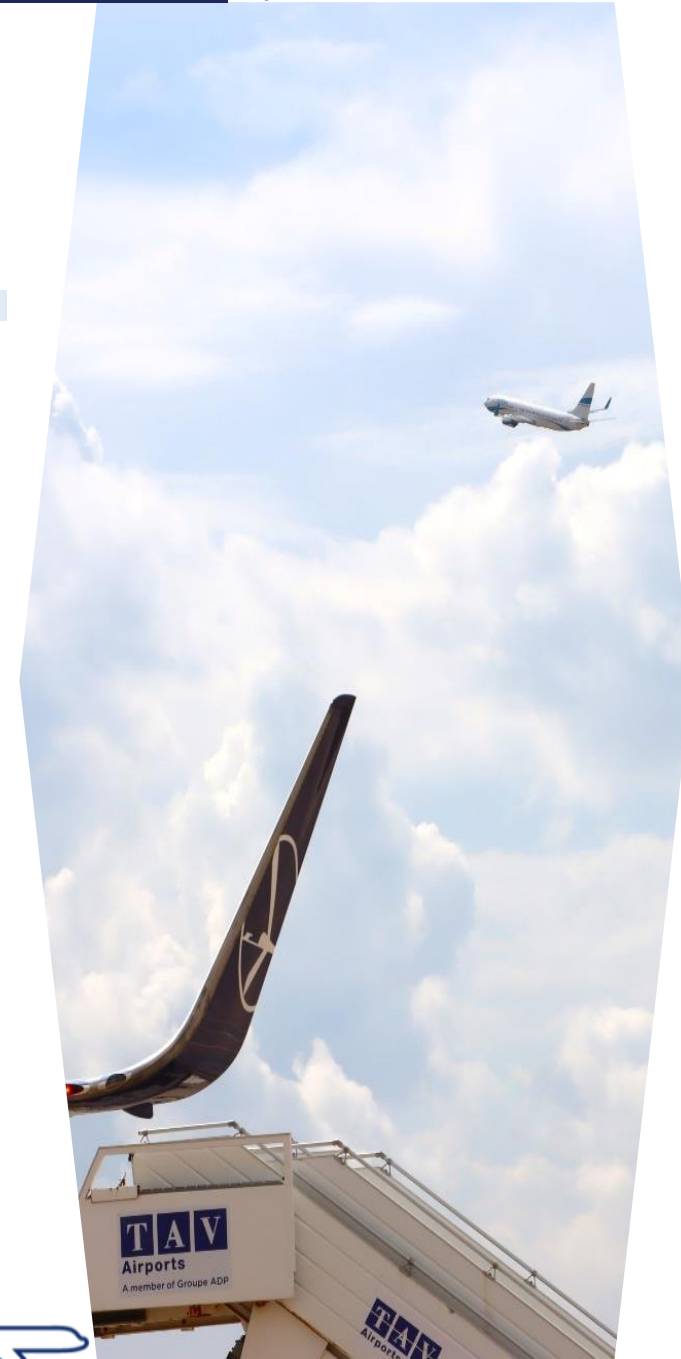

3. PRINCIPLES OF APPLICATION

The Landing Charge is not applied for the conditions indicated below:

- Aircrafts compelled to return to the departure aerodrome due to technical incidents or bad weather conditions;
- Aircraft belonging to an enterprise of transport or aerial work, performing test flights provided that these test flights do not involve any remunerated work or transport, that only the crew members and staff carrying out the tests are on board; and that they return to the aerodrome of departure;
- Aircraft belonging to the Tunisian State or used by it as a public service and without remuneration;
- Aircraft belonging to the national aeronautical sports associations;
- Aircraft carrying aids or donations;
- Foreign State aircraft in official visit to Tunisia;
- Aircraft performing a positioning flight between Tunisian airports (A positioning flight is a non-commercial flight (without passengers or cargo) performed in order to join the departure airport to operate a commercial flight);
- Aircraft with a MTOW of less than or equal to 5.7 tons used for non-profit making activities (aeronautical sports, training, aerial work...).

4. PAYMENT

The Landing Charge is applied and invoiced according to principles of application, reduction / exemption conditions of Tunisian AIP (GEN 4.1.1 GEN 4.1.7 and GEN 4.1.8).

1. SCOPE

Parking Charge is payable for the use by the aircraft of parking facilities and equipment. Tariffs for the charge are based on the duration of the parking, the characteristics of the aircraft (maximum take-off weight - MTOW) and the characteristics of the parking area. The rate and the principles of application of these charges are described below.

2. CHARGES

Parking Stand Number	Time Duration	Charges
Enfidha (Apron contact stands from 11A, 11B to 19A, 19B and Parking from 11 to 19)	From 06:00 to 18:00 UTC	0,16 Euro / Ton / Hour
	From 18:00 to 06:00 UTC	0,10 Euro / Ton / Hour
Monastir (Apron from 5 to 15)		
Enfidha (Apron 1 - 2 , Cargo from 50 to 63 & W1, W2, W3, W4, C11)	From 06:00 to 18:00 UTC	0,10 Euro / Ton / Hour
	From 18:00 to 06:00 UTC	0,05 Euro / Ton / Hour
Monastir (Apron from 1 to 4 & from 16 to 25)		
Enfidha and Monastir (General Aviation Apron)	None	0,05 Euro / Ton / Hour

3. PRINCIPLES OF APPLICATION

A. Charges are calculated based on the maximum take-off weight (MTOW) of the aircraft,

B. The so-fixed charges are raised by :

- 10% for aircraft requiring a parking area corresponding to a circle the radius of which is superior to 30 metres.
- 15% for aircraft requiring a parking area corresponding to a circle the radius of which is superior to 40 metres.

The calculation of the areas is applied with reference to the aircraft manufacturer standards.

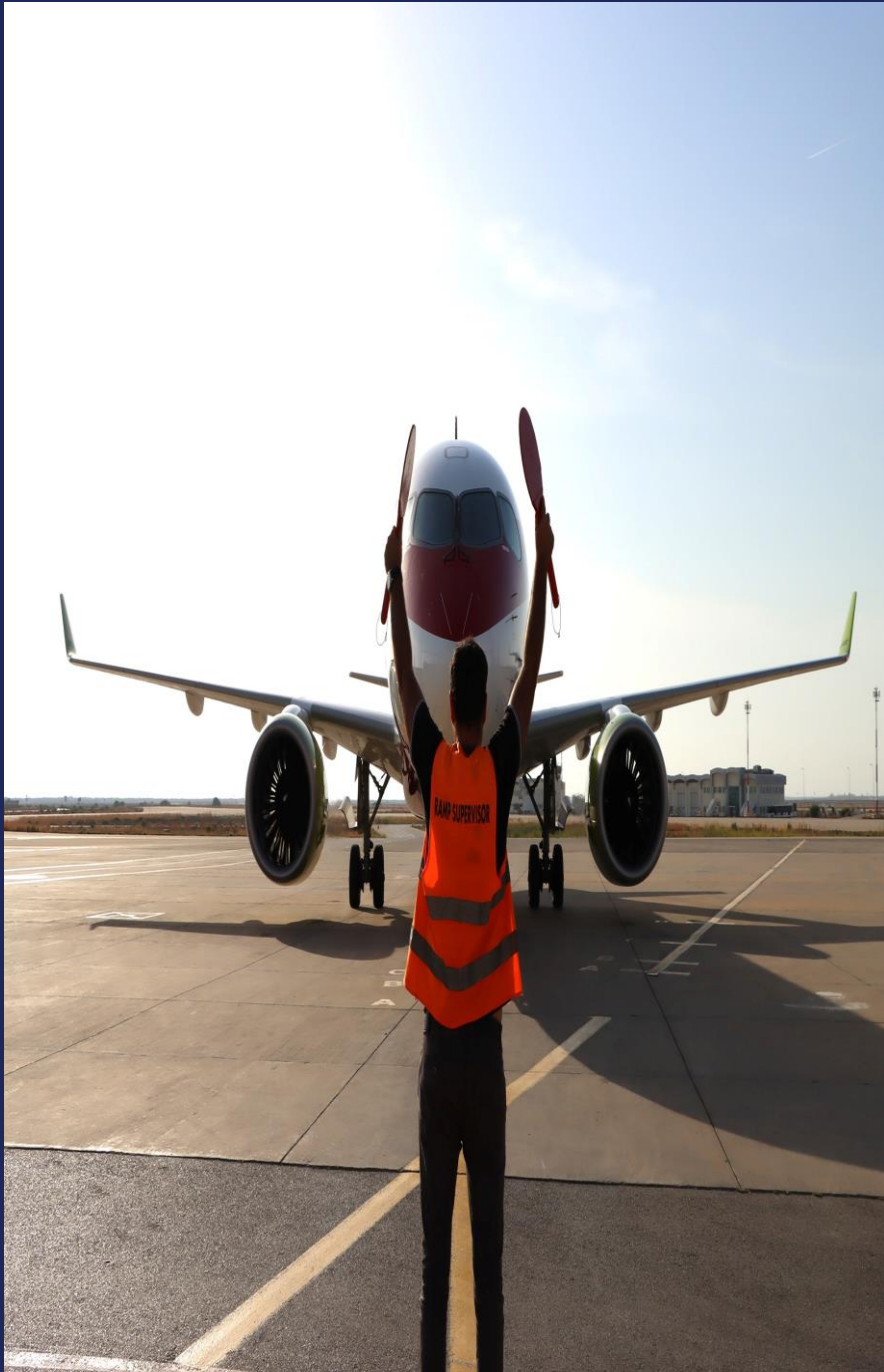

C. Any fraction of ton or of hour is counted as one ton and one hour. First hour of park position usage is free.

D. This tariff is not applied for the conditions indicated below:

- Aircraft belonging to the Tunisian State or directly used by it or by a public administration performing landings on public service and without remuneration;
- Aircraft belonging to the national aeronautical sports associations for any parking period shorter than 12 hours;
- Aircraft carrying aids or donations;
- Foreign State aircraft in official visit to Tunisia,
- Aircraft with a MTOW of less than or equal to 5.7 tons used for nonprofit activities (aeronautical sports, training, aerial work ...).

4. PAYMENT

The Landing Charge is applied and invoiced according to principles of application, reduction / exemption conditions of Tunisian AIP (GEN 4.1.2 GEN 4.1.7 and GEN 4.1.8).

1. SCOPE

A Ground Lighting Charge is applied for flight operations (landing / take off) by night. This charge is payable for landing and take-off operations by daylight with lighting facilities on, whether they are requested by the aircraft commander/operator or even imposed by the aerodrome services for safety reasons. The rate and the principles of application of this charge are described below.

2. CHARGES

Type Of Service	Charges
Ground Lighting	24 Euro / operation

3. PRINCIPLES OF APPLICATION

A. This charge is not applied for the conditions indicated below;

- Aircrafts compelled to return to the aerodrome due to technical incidents or bad weather conditions;
- Aircraft belonging to an enterprise of transport or aerial work, performing test flights provided that these test flights do not involve any remunerated work or transport, that only the crew members and staff carrying out the tests are on board; and that they return to the aerodrome of departure;
- Aircraft belonging to the Tunisian State or used by it as a public service and without remuneration;
- Aircraft carrying aids or donations;
- Foreign State aircraft in official visit to Tunisia;
- Aircraft with a MTOW of less than or equal to 5.7 tons used for non-profit making activities (aeronautical sports, training, aerial work...);
- Aircraft performing a positioning flight between Tunisian airports.

4. PAYMENT

The Ground Lighting Charge is applied and invoiced according to principles of application, reduction / exemption conditions of Tunisian AIP (GEN 4.1.6 GEN 4.2.3).

1. SCOPE

A charge applies for Safety Precaution Service provided for Aircraft in the Airport. The rates and the principles of application of this charge are described below.

2. CHARGES

Type Of Service	Charges
Safety Precaution (Foreign Air Carriers)	40 Euro / operation
Safety Precaution (Domestic Air Carriers)	30 Euro / operation

3. PRINCIPLES OF APPLICATION

A. Safety precaution service is provided on demand for the aircraft which have passengers on board and are refueled, and charge is applied.

B. This charge is also payable when it is requested by the aerodrome services due to safety reasons.

C. Fire Fighting Vehicle is allocated with its crew for safety precaution service.

D. This tariff is not applied for the conditions indicated below:

- Aircraft belonging to Tunisian State or used by it as public service and without remuneration;
- Aircraft belonging to national aeronautical sports associations;
- Aircraft carrying aids or donations;
- Foreign State aircraft in official visit to Tunisia.
- Safety precaution service provided to the aircraft in every kind of emergency situation

4. PAYMENT

The Safety Precaution Charge is applied and invoiced according to the principles of the agreement between TAV Tunisie and the related organization.

1. SCOPE

A charge applies for the providing of Fire Assistance Service to aircraft in the Airport. The rates and the principles of application of this charge are described below.

2. CHARGES

Type Of Service	Charges
Hot Works Fire Truck Standby (per truck/per hour)	30 Euro
Hot Works Fire Fighter Standby (per fire fighter/per hour)	10 Euro

3. PRINCIPLES OF APPLICATION

- Fire assistance service is provided compulsorily to any hot works carried out in/outdoor at Enfidha-Hammamet International Airport and charge is applied.
- Fire Fighting Vehicle is allocated with its crew for fire assistance service.
- Fire Fighter is allocated with proper extinguishing agents.
- Any fraction of hour is counted as one hour.
- In case of fire extinguishing agent use due to fire emergency, 20% surcharge is applicable to current unit price of extinguishing agent.

4. PAYMENT

The Fire Assistance Charge is applied and invoiced according to the principles of the agreement between TAV Tunisie and the related organization.

1. SCOPE

A charge applies for the providing of Airfield Cleaning Services in the Airport. The rates and the principles of application of this charge are described below.

2. CHARGES

Type Of Service	Charges
Fuel & Oil Spillage	30 Euro
Various waste Collection	15 Euro

3. PRINCIPLES OF APPLICATION

- A. Service is provided on demand and/or in case of any operational failure of any parties involved on airfield operations.
- B. Sweeper Truck / Fire Fighter Truck use on cleaning operation is subject to 100% surcharge of relevant cleaning fee

4. PAYMENT

The Airfield Cleaning Charge is applied and invoiced according to the principles of the agreement between TAV Tunisie and the related organization.

1. SCOPE

A charge applies for the use of car park or bus park facilities at the airport. The rates and the principles of application of this charge are described below.
